## 1. Introduction

Welcome to Recipe Sharing and Meal Planning System. This manual will guide the user through the features and functionality of the system, ensuring them can make the most out of it!

## 2. Getting started

- System requirements

User will need to use a computer or mobile device with internet access. User also will need a modern web browser as example the Chrome, Firefox or Safari.

- Accessing the system

To access the system, user need to open their web browser and navigate to the system.

## 3. Main features

- Preview system

User will navigate to the system URL. Scroll through the system to get an overview of the system without logging in. Can be seen from **Figure 1.1 Preview System**.

- Registering an account

On the login page, if the user is yet to have an account, click "Register". Fill in the required information and click "Submit". Then, after that, user will be required to logging in to enter the account. The example of this page is **Shown in Figure 1.2 Register Account**.

- Logging in

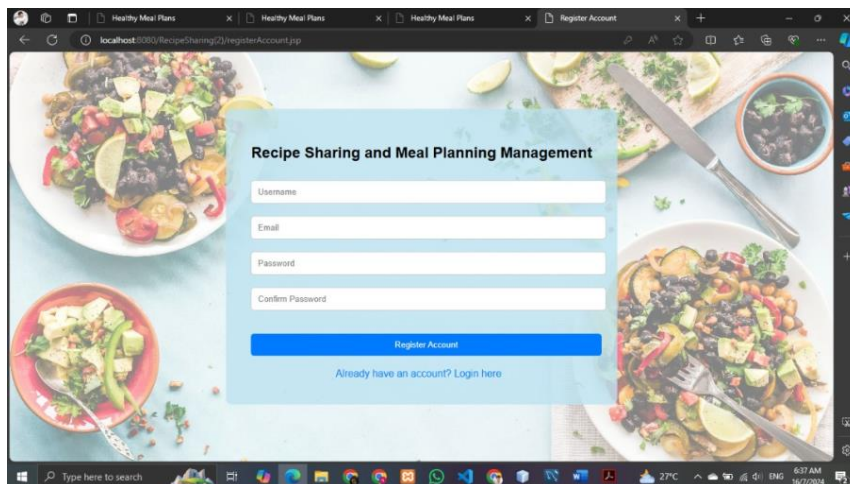

Users must enter username and password on the login page that can be seen like in the **Figure 1.3 Login Account**. Then, click "Login" to access into their account dashboard.

- Viewing the dashboard

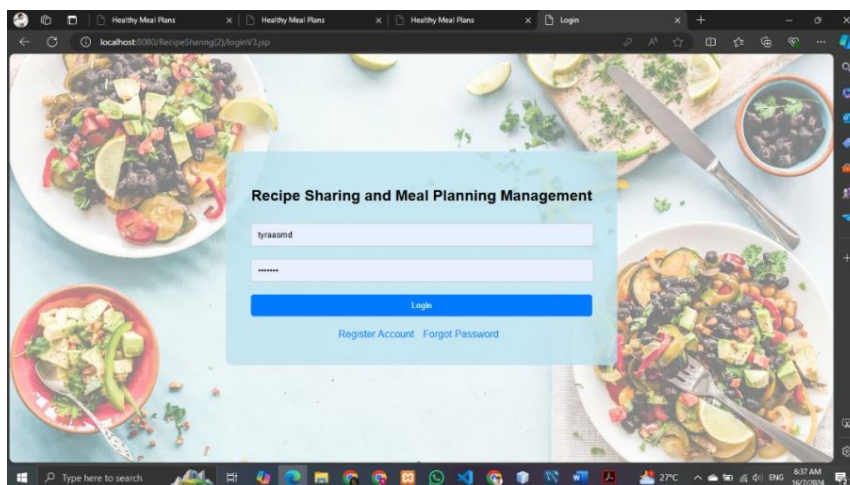

Once logged in, user will be directed to the dashboard like in the **Figure 1.4 Dashboard** where they can access all features of the system.

**Figure 1.3 Login Account**

**Figure 1.4 Dashboard**

#### **4. Browsing recipes**

- Viewing recipes

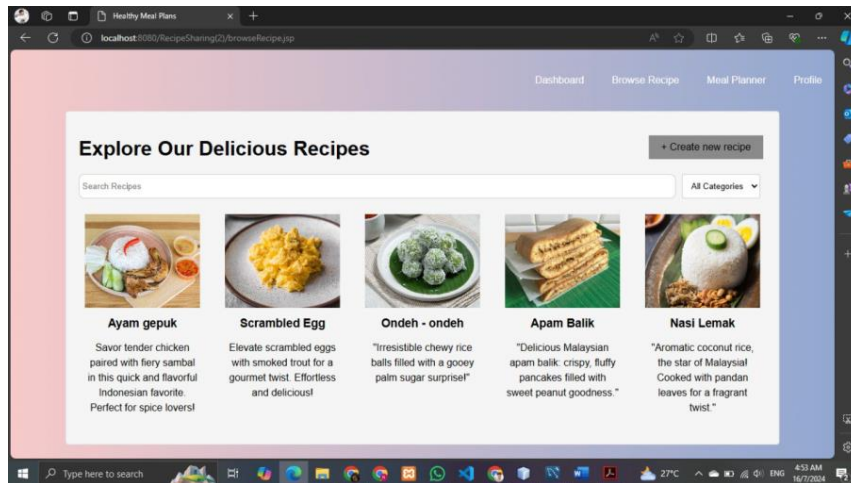

From the dashboard, user can click "Browse Recipe". User can also search for recipes by keyword or browse through categories. Click on a recipe to view details, as example Scrambled Egg like in the **Figure 1.6 Recipe Description** and **Figure 1.7 More Recipe Description**.

- Adding recipes to meal planning

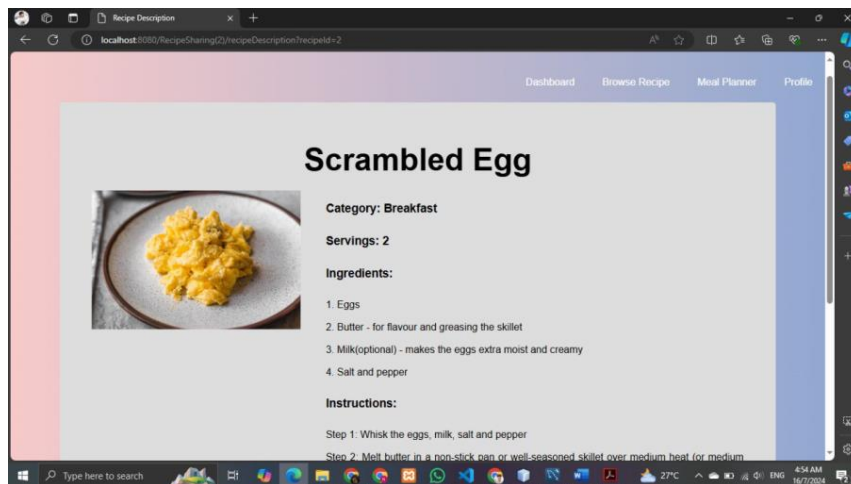

While viewing a recipe, user can also click on "add to meal planning" button to add the recipe they interested into their own meal planner, as example like the **Figure 1.8 Add to Plan**. If user are confirm to add the meal planning they will need to submit the addition after choosing the meal category and date of their choices.

- Creating a new recipe

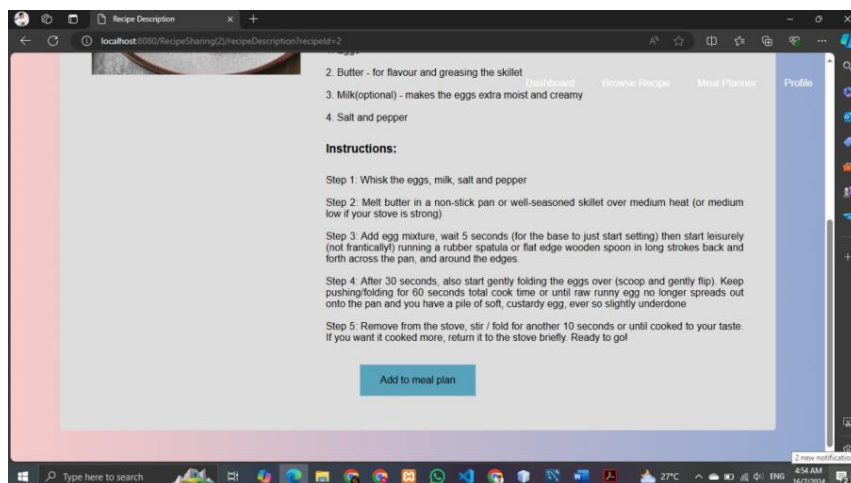

By clicking the "+ Create New Recipe" button, users can easily add their own recipes to the platform like shown in **Figure 1.5 Browse Recipe**. This feature allows them to input all necessary details such as ingredients, instructions, recipe name, image, category and description like shown in **Figure 1.9 Create New Recipe**. Once submitted, their recipes become accessible to other users, fostering a community of shared culinary creativity and discovery.
